WHY I BUILD IT MYSELF

BEHIND THE WORK

**I WRITE THE COPY. I
BUILD THE PAGE. SAME
PERSON.**

Here's why that matters to you.

Agoro Hassan
@hassanconverts

WHY I BUILD IT MYSELF

THE USUAL WAY

Writer. Designer. Developer.

Three people. Two handoffs.

Every handoff loses a little of what you meant.

Agoro Hassan

@hassanconverts

WHY I BUILD IT MYSELF

LAGOS LOGIC

**Pass “Owa o!” from the back
of a danfo to the driver.**

By the third row, it has become “Oshodi”.

That’s what happens to your words between
the writer and the developer.

@hassanconverts

WHY I BUILD IT MYSELF

WHAT I DO INSTEAD

Research. Copy. Design. Live page.

One person from the first question to the live link.

The words and the layout are made for each other. Fixes go live the same day. Nobody to blame but me.

Agoro Hassan

@hassanconverts

WHY I BUILD IT MYSELF

SOME OF MY WORK

Pages and copy I've done

1

Gluvera: a herbal tea sales page, written and built by me, live on 7o4stores

2

AIRUVA: sales page copy for a respiratory herbal tea

3

Brydge Africa: website copy for a B2B trade platform

WHY I BUILD IT MYSELF

SEE FOR YOURSELF

DM PAGE.

I'll send you the work. Judge the work, not my words.

Follow. The Leak Map drops next Tuesday.
