**36 VISITED. 7
STARTED. 0 PAID.**

The problem was one question.

A FOUNDER SHARED HIS NUMBERS

Sabb
Indie Hackers

the data is clear: 36 visited, 7 started, 6 completed, 0 paid. so it's problem 1: drop before the form starts. the landing page isn't answering "is this for me" fast enough.

HIS DIAGNOSIS

People left before the form even started.

Not because of the price.

Because the page didn't answer "is this for me?" fast enough.

35K+ views. 1.5K+ website visits. Still zero paid customers. What am I missing?

THE LESSON

Views don't pay. Clarity does.

More views didn't fix it.

Until a stranger can tell what it is and who it's for, more traffic just means more people leaving.

THE 5 SECOND TEST

Show your page to a stranger for 5 seconds. Then ask:

- 1 What is it?
- 2 Who is it for?
- 3 What should I do next?

Can't answer all 3? That's your leak.

EXAMPLE

Fix the first line

BEFORE

"Empowering your journey to financial freedom."

AFTER

"For salary earners in Lagos: save your first ₦500,000 in 12 weeks, one class a week."

Example lines.
