MONEY MATH

BEFORE YOUR NEXT LAUNCH

YOUR EARLY BIRD DISCOUNT MIGHT COST YOU HALF YOUR PROFIT.

The math takes 30 seconds.

Agoro Hassan
@hassanconverts

MONEY MATH

EXAMPLE

Program price ₦100,000. Getting each student costs you ₦50,000.

YOUR PROFIT

₦50,000 per student

Cost means ads, tools and support time. Numbers are an example. Use yours.

Agoro Hassan
@hassanconverts

MONEY MATH

NOW GIVE 25 PERCENT OFF

Price drops to ₦75,000. Cost stays ₦50,000.

YOUR PROFIT

₦25,000 per student

Your profit just halved.

Agoro Hassan
@hassanconverts

MONEY MATH

TO MAKE THE SAME ₦50,000

**You now need 2 students
instead of 1.**

Twice the ads. Twice the support. Twice the
WhatsApp messages.

Same money.

Agoro Hassan
@hassanconverts

MONEY MATH

THE RACE TO CHEAP

The median product on Selar sells for \$3.82.

For their top 1 percent of creators, products priced \$100 to \$499 bring in the most revenue.

The winners didn't get there by cutting price.

Selar Blog, "What the Top 1% of Selar Creators Are Actually Doing Differently", 16 May 2026

INSTEAD OF CUTTING PRICE

5 ways to give more

- 1 A bonus 1:1 call for people who pay by Friday
- 2 Pay in 2 parts instead of a lower price
- 3 Early access to the class group
- 4 A bonus workshop, only for this cohort
- 5 A done with you session on their first task

Agoro Hassan
@hassanconverts

MONEY MATH

THE RULE

Value first. Discount last.

If you must discount, know your numbers first: cost per student, profit, and how many more students you need.

Agoro Hassan
@hassanconverts

MONEY MATH

27 NOVEMBER IS COMING

**Save this before your
next launch.**

**Know your numbers before you cut your
price.**

Send it to a coach planning a Black Friday offer.
