MONEY MATH

RECEIPTS · TRUSTPILOT, AUG 2026

**22,622 CLICKS. 8
CONVERSIONS. £1,587
EACH.**

A UK owner did the math on their marketing. Now do yours.

MONEY MATH

WHAT THEY WROTE

Trustpilot reviewer

Aug 2026

22,622 clicks and just 8 conversions over a 4 month period... £1,587.42 per conversion including management fees... But a lead isn't a customer!

MONEY MATH

AND THE LINE EVERY OWNER SHOULD READ TWICE

Trustpilot reviewer

Aug 2026

A £20,000 sale isn't £20,000 profit. At those acquisition costs a small business doesn't grow ... it goes out of business.

MONEY MATH

THE ONLY NUMBER THAT MATTERS

Cost per paying student.

Ad spend ÷ students who paid

Not clicks. Not signups. Not likes. People who paid.

Agoro Hassan
@hassanconverts

MONEY MATH

THE SAME MATH, IN NAIRA

₦300,000 on ads. 5 students paid.

₦60,000 per student

Your program sells for ₦75,000.

That leaves ₦15,000 to pay for your time, your tools and your support. Per student.

Example numbers.

3 WAYS TO FIX IT

Make the math work

1

Raise what each student is worth: a second program, a higher tier, renewals

2

Raise how many signups pay: fix the leaks before more ads

3

Lower the cost: stop the ads that bring signups but no payments

Agoro Hassan
@hassanconverts

MONEY MATH

TONIGHT

Do the math for your last launch.

Ad spend ÷ students who came from ads.

Then compare it with what you keep per student. Bigger or smaller?

Agoro Hassan
@hassanconverts

MONEY MATH

YOUR TURN

**What's your
number?**

Comment it, or DM it if it's scary. I'll tell you
which leak to fix first.

Save this. Do the math tonight.
