WHATSAPP GROUPS

SIGNS IT'S ABANDONED

No welcome. No rules. Last message: "Is the class still holding?"

Nobody knows what happens next.

So they mute it, then leave.

WHATSAPP GROUPS

BRING IT BACK · 1 TO 4

Set it up once

- 1 A welcome message: what this group is for, and when class happens
- 2 3 rules: no spam, no selling, questions welcome
- 3 A pinned message: the date, the time, the link
- 4 Admins only for the first hour, so everyone sees the welcome

WHATSAPP GROUPS

BRING IT BACK · 5 TO 7

Then keep it alive

5

One useful post a day before class: a tip, a question, a student win

6

Reminders: the day before, the morning of, 1 hour before

7

A clear end: the offer, the deadline, then close the group

EXAMPLE POST · 2 DAYS BEFORE

Quick homework before Saturday: write down the last 3 questions people asked you about your work. Bring them. We'll turn them into your first offer.

7:30 AM

People show up for what they've already started.

WHATSAPP GROUPS

AFTER THE CLASS

Close the group on purpose.

Post the offer and the deadline. Answer questions for 48 hours. Then close it, and move everyone who wants more to your broadcast list.

A group that dies slowly teaches people to ignore you.
