UNPOPULAR OPINION

MORE FOLLOWERS WON'T FIX YOUR ENROLMENTS.

Here's what will.

FOLLOWERS WON'T FIX IT

Followers don't pay bills. Conversations do.

A thousand of the right people, with no leaks,
beats fifty thousand of the wrong ones.

Especially if every one of them hits "DM for
details".

THE MATH

Double your followers. Keep the leaks.

You get double the people falling off the same jammed door.

Fix the door, and the followers you already have start paying.

SO WHAT SHOULD YOU POST FOR?

To start conversations, not to collect numbers.

End every post with a question, a word to comment or a reason to DM.

The number to watch is conversations, not followers.
