FROM SEPTEMBER'S NEWS

3 SIGNALS OF WHERE SELLING ONLINE IS GOING NEXT.

01 · META MUSE

Meta launched Muse, an AI agent for small businesses, in the US and Canada.

It reads your ad account and Instagram data and drafts the next move. Not in Nigeria yet, but it shows where ads are heading.

02 · CHECKOUT

Paystack launched onsite card checkout for Shopify stores in South Africa.

One Shopify agency said some clients saw “an increase in conversion of up to 15%” from that feature alone. Fewer redirects, more buyers.

Source: IT Online and Lifestyle & Tech, 28 September 2026. South Africa only for now.

03 · NIGERIA'S ECONOMY

Nigeria's economy grew 4.43% in Q2, with services growing 4.60%.

Modest growth, led by services. Context, not proof that every buyer has more money.

WHAT TO DO WITH IT

Get ready this week

1

Tidy your ad account: clear names, one offer per campaign.

2

Count the taps and redirects from your post to payment. Cut one.
